Swampscott, MA 01907

Dear Staff of Ceonex

Your team is responsible for having put in a lot of hard work in building my new website BWNCOMP.COM. I have worked with many different companies in the past, yet, CEONEX went above and beyond to make sure that I was pleased with EVERY step taken in building my new site. They responded VERY quickly to any of my questions. They kept me in the loop and provided examples to any suggestions in improving what was being put into the site. A very knowledgeable and professional staff who went above and beyond ANY expectations that I had. When it comes time to build my second website...I will be sure to contact you. Ceonex has gained my trust and that does not come easy.

Your staff member, Eireann Kiley, worked with me in every step of the process and she DEFINITELY has my respect. She was such a joy to work with. Through each and every step of the process, she went above and beyond in helping me to set up my website. Giving valuable suggestions as to what may look better in the design and in wording within the site. She knows what she is doing. Ms. Kiley, keep up the great work.

If you are looking at getting your website built...look no further. This link will take you to their contact page: <http://ceonex.com/contact/>
Their contact number is: 1-888-724-3545.

Tell them BRIAN sent you from BWN Computer! Happy Computing!

Sincerely,
Brian Norby
